Test Report

Test Case 1

Project Name: PORTIDE (Maritime Port Operations Intelligence Platform)					
Login Test Case					
Test Case ID: Test_1			**Test Designed By: Aleena Roby**		
Test Priority (Low/Medium/High): High			**Test Designed Date:** 25/10/2026		
Module Name: Authentication & Session Management (/login)			**Test Executed By:** Aleena Roby		
Test Title: Verify login with valid administrator credentials and role-based redirect.			**Test Execution Date:** 25/10/2026		
Description: User has valid username and password for Port Administrator access.					
Pre-Condition : User has valid username and password registered in the system (aleena302005@gmail.com).					
Step	**Test Step**	**Test Data**	**Expected Result**	**Actual Result**	**Status (Pass/Fail)**
1	Navigate to the login page	URL: https://portide.vercel.app/login	Display login page	Login page displayed	**pass**
2	Valid email entered	Field accepts email string	Email accepted in input	Email entered successfully	**pass**
3	Valid password entered	Password masked securely	Characters hidden with dots	Password entered securely	**pass**
4	Click on login button	Click Sign In button	User should enter the admin main dashboard	User entered to the admin main dashboard	**pass**
5	Verify session token	Check localStorage token	Token saved in browser storage	Token verified and active	**pass**
Post-Condition: Username and password is checked with database values for successful login and dashboard redirection.

Test Report

Test Case 2

Project Name: PORTIDE (Maritime Port Operations Intelligence Platform)	
Shipping Company Registration Test Case	
Test Case ID: Test_2	**Test Designed By: Aleena Roby**
Test Priority (Low/Medium/High): High	**Test Designed Date:** 25/10/2026
Module Name: Carrier Onboarding & Approvals (/register, /admin/company-approvals)	**Test Executed By:** Aleena Roby
Test Title: Verify shipping company onboarding submission and administrative approval queue.	**Test Execution Date:** 25/10/2026
Description: User submits company registration with legal identifiers and administrator reviews application.	
Pre-Condition : Commercial shipping entity has registered business license and admin is authenticated.	

Step	Test Step	Test Data	Expected Result	Actual Result	Status (Pass/Fail)
1	Navigate to registration page	URL: https://portide.vercel.app/register	Display corporate registration form	Registration form displayed	**pass**
2	Test empty form validation	Submit blank form	Validation alerts and halts submission	Submission prevented as expected	**pass**
3	Access Admin Approvals	URL: /admin/company-approvals	Approvals management queue displays	Approvals workspace displayed	**pass**
4	Filter application statuses	Filter: Pending, Approved	Table filters by selected criteria	Applications filtered successfully	**pass**

Post-Condition: Carrier record is created and visible in Port Administrator approval dashboard.
